Summary of role:

VMS (Fleet Refrigeration) Ltd is a forward thinking fleet management and contract hire company with offices based in East Anglia and Hertfordshire. VMS provides a wide range of services to blue chip fleet operators, insurances and smaller operators.

As part of our continued growth we are now looking to appoint a Transport Refrigeration Engineer. This position will be based from home, covering midlands/Birmingham area.

The Role:

- Transport Refrigeration Engineers have responsibility for routine servicing and repairs as required, mechanical fault finding, electrics and all other duties associated with this role
- Completing all work assigned on a daily basis, ensuring that adherence to company and manufacturer standards and agreed time constraints
- Ensuring that work is always to the highest standard, seeking to achieve consistently high customer satisfaction and repeat business
- Maintain levels of stock on the van to agreed specification.
- Confident in the use of PCs and phones
- Able to prioritise and organise workload to achieve set deadlines and KPIs
- Willing to work in areas outside main district as and when required
- Our Transport Refrigeration Engineers should present a positive company image through professionalism and quality of service
- Maintain good working relationship with clients
- Manage and prioritise jobs and workloads, scheduling, completing paperwork and communicating with managers and senior-level staff members as appropriate.

The ideal candidate will:

- Be an enthusiastic, self-motivated team player
- Qualified to work on Carrier, Hubbard, GAH, Alex Original Refrigeration units plus others as required
- Work to high levels of efficiency and productivity on own and as part of a team
- Have at least 5 years' experience of working on refrigerated commercial vehicles, ideally Mercedes Benz, Ford, Fiat, Volkswagen and Isuzu
- Qualified to F-Gas Cat 1
- Be prepared to work on call every other weekend and bank holidays on a rota basis
- Basic hours will be 12 per day
- Have a full driving licence to include vans
